

Reusable Polypropylene Deli Containers

Our heavy-gauge, injection-molded, polypropylene deli containers are a reliable and versatile solution for food service operators seeking a durable and leak-resistant food packaging option.

They are great for soups and other liquid or dry foods and can handle both hot and cold contents. Reusable with a simple wash, these containers provide an effective solution for takeaway, home deliver and grocery applications. A practical and high-quality packaging option which consumers can simply rinse and reuse, repeatedly!

FEATURES

BENEFITS

- | | |
|-----------------------------------|---|
| Exceptional Temperature Endurance | • Enables versatile food applications, from hot to cold, and provides easy storage options in the freezer, refrigerator, or pantry. |
| Leak-Resistant Deli Seal | • Keeps food fresh and well-presented by preventing leaks and spills. |
| Translucent Container Design | • Simplifies product identification, making it easy for customers to quickly identify their desired food item. |
| Stackable Lids & Bases | • Streamlines inventory management and merchandising options. Stacks securely to help food reach its destination. |
| Smoothwall Design | • Offers a large and smooth surface area, ensuring easy and secure placement of product labels and branding information. |
| Variety of Sizes | • Accommodates a wide range of food items and portion sizes, making it easy to meet the needs of diverse applications. |
| Low-Effort Lid Application | • The easy-to-use design allows for quick and hassle-free lid application and removal, saving time and effort in busy kitchen or retail environments. |

These guidelines are supplied to assist you in determining the proper use of RPT products. They are based upon testing and published guidelines and are reliable in most applications. However, because every food supplier's recipes, ingredients, processes and supply chain is unique, these guidelines are not a substitute for product testing. Confirmation of product acceptability under your specific conditions of use must be done by you. Not tested in commercial dishwashers. Top-rack residential dishwasher safe only.
